

Source  
Document

```
graph TD; A[Source Document] --> B[Embedding]; B --> C[LSTM]; C --> D[LSTM]; D --> E[Output]; E --> F[Summary];
```

The diagram illustrates a sequential process for document summarization. It begins with a 'Source Document' box at the top. An arrow points down to an 'Embedding' box, which is the first of two boxes enclosed within a larger rectangular container. From 'Embedding', an arrow points down to an 'LSTM' box, the second box in the first container. An arrow then leads from this 'LSTM' box to another 'LSTM' box, which is the first of two boxes in a second, larger rectangular container. From this second 'LSTM' box, an arrow points down to an 'Output' box, the second box in the second container. Finally, an arrow points from the 'Output' box to a 'Summary' box at the bottom of the diagram.
